Subject: HELP! - Sharp PC-6200 lcd & docs  
To: ham-digital@ucsd.edu

hi, mitch wa4osr here in mobile, alabama...

my sharp pc-6200 was dropped and the lcd display  
was damaged... upon taking the display apart, one  
of the surface mount column drivers was cracked...  
rendering the display unusable... therefore,  
i am in desperate need of the lcd display panel...  
the part numbers on the display panel are LM64N671  
and 90D13145W ... both numbers are on the panel...  
my pc-6200 is actually a pc-6220, which  
i think indicates that it has a 20 mb hard drive...

i bought the pc-6220 used with absolutely \*NO\* docs...  
it has the 2400 baud internal modem... i need \*ANY\*  
info, but especially would appreciate a copy of the  
owner/operator manual... i will gladly pay for  
copies/postage...

if anyone can help with a source of the lcd panel or  
with the docs please email me or call me collect  
at the below numbers...

thanks for any help/leads...
